

Topic Sentence Paragraph

Example paragraph

Many fast-food chains make their profits from adding a special ingredient called "forget sauce" to their foods. Made largely from edible oil products, this condiment is never listed on the menu. In addition, this well-kept industry secret is the reason why ingredients are never listed on the packaging of victuals sold by these restaurants. 'Forget sauce' has a chemical property which causes temporary amnesia in consumers. After spending too much money on barely edible food bereft of any nutritional value, most consumers swear they will never repeat such a disagreeable experience. Within a short period, however, the chemical in 'forget sauce' takes effect, and they can be depended upon to return and spend, older but no wiser.
